

## MARKERS LK330 printer

### Product description

Reliable, portable thermal transfer printer for making markers for wires and cables, enabling printing of heat-shrinkable sleeves, adhesive tapes, PVC profiles. Thanks to the built-in QWERTY keyboard enabling quick data input and the additional function of connecting to a computer, it makes it an ideal tool for installers and manufacturers of control cabinets. The device has a large, easy-to-read display showing 3 markers at a time and has the ability to automatically cut the marker to the desired length.

Szybkość druku:	18.5 mm/s - normalny tryb pracy dla profili
Maksymalna ilość linii tekstu:	2
Współpraca z komputerem::	tak
Rozdzielczość druku:	rozdzielczość 300 dpi

### Set contains

MARKERS LK330 printer, power supply, USB cable, 40m color ribbon, profile guide, software (allowing for importing files from EXCEL) carrying bag.

### Properties

Print speed: 18.5 mm / s - normal operating mode for profiles
