

Printing tube for a cable with a diameter of 1.2mm-1.7mm, cross-section 0.25mm², yellow 100m

Product description

Marker RP printing tube is made of self-extinguishing PVC resistant to weather conditions, ideally suited for printing on Marker thermal transfer printers and others available on the market. Designed to mark most wire and cable diameters.

Carefully selected shape and flexibility make it easy to apply to cables.

Właściwości

- made of self-extinguishing PVC
- working temperature - 30 C to +60 C
- stable UV print

WYMIARY I OPAKOWANIA

TYP	ŚREDNICA min/max	PRZEKRÓJ mm ²	OPAKOWANIE
RP*050	1,6 mm-2,1 mm	0,5	rolka 100 m lub 50 m
RP*075	2 mm-2,5 mm	0,75	rolka 100 m lub 50 m
